Uber should be allowed to operate in SC. This is America, a free economy. If a firm comes up with a product that is easier, cheaper, cleaner, and faster, consumers have a right to use this service. It is overall simply better than standard taxi cab service. This is infringement on a free economy.

Is this how government operates? If SC ran the only barber shop, with \$20 haircuts, and I came along and opened a barber shop with \$15 haircuts, you'd send a cease and desist? That is what is happening with Uber

Thank you for your time.

Subject: Cease & Desist Order against Uber

I see absolutely no reason for the sudden cease and desist order against Uber. SC is a right to work state that promotes entrepreneurship and community. This order flies in the face of all that we are and sets a dangerous precedent for state interference in consumer choice and freedom. I have many friends who rely on Uber for work each day, and this order is an interference of their rights as consumers and ability to choose and discriminate between what they deem to be safe and convenient modes of transportation.

Please reconsider this order. When this kind of stuff happens, it makes me thankful that I'm planning to leave South Carolina in the next few months.

Thanks,
Jonathan Biddle

As a young college student UBER has given me a sense of security when getting rides home at night time. Now that they are outlawed I feel very unsafe in regular cabs!! Please bring uber back to Columbia SC!!!

I am asking you as a consumer that lives in South Carolina to please allow uber to operate in this state, I should have the right to use the service or not. This is called freedom of choice and free competition. Please do not take away my freedom of choice, its healthy for business.
